"What does this all mean?" we asked Staff-Cantain Holbrook, the tall, unruffled Officer who presides over this new Institution, when he had admitted as and we were scated in the dining-room.

"What does what mean?" "The quiet, the lack of crowds and hurry, and yet the idle groups in the

"I can sympathize with you, lads," said the Staff-Captain, when the spokesman had voiced their petition, "for I have only been able to obtain the use of a bed and a half with one of our people for my wife and daughter and self since I have been in the town, and I came weeks

But you'll find room for us here, sir?"—this almost pitcously,

"Sorry, but we are full right up just now," said the Salvationist; and he had no alternative to suggest, either, so the party filed wearily away. It was crammed with war-workers: greasy, grimy, sweat-stained men, they filled that car to overflowing. - Not an inch of floor space appeared to be unoccupied inside: outside every seat was filled, and men

stood in rows between those who rested. The aisles and stairs, the platforms at either end, were gorged, and the very top bore its cluster of hungry bumanity. It reminded us of nothing so much as a settling of bees at swarming time. In the midst of this swaying brood the conductor tried to force a passage in an effort to collect a few fares. "But it was the grandest letter which has ever come to this cabin. You shall see it," and saying this he lifted the lid of an old sea chest and extracted a smaller box, unlocked it, put on his spectacles, found a bundle of well-thumbed letters, and handed the first of the pile to nie. It was a long epistic, but this was the gist of it:-

"Dear Parents,—I've strayed much, forgetting your words and prayers, and my past is greatly

A GREAT LIVING CHARITY STRUCK DEAD

In sening forth the foregoing facts we are not In sexing forth the foregoing facts we are fold, musindful of the limitations put on our inquiry under this writ. The validity of these ordinances is to be determined from their provisions, and the question of their validity or invalidity is all that concern us here. Nevertheless, and assuming for the moment the validity of the ordinances, these facts are, highly instructive as illustrating. ing for the moment the validity of the ordinances, these facts are highly instructive as illustrating the extent of the power conferred and the manner of its exercise. Here is a great and living charity, doing good to thousands of the needy, and heavy laden of Los Angeles, struck dead because it does not make over the management of its affairs to a local board of "representative citizens," and can not agree that it will dispense the bounty which it received exclusively for local purposes. Charity is not only to begin at home, when the nead a home, asying as under "cermit" it. but to end at home, saving as under "permit" i may be suffered to go abroad. The quality of mercy (and so necessarily of Charity) we are told

"Is not strained: It droppeth as the gentle rain from Heaven Upon the place beneath."

But in Los Angeles it is to be trained and drop as from a sprinkling pot in the guiding hand of the Charles Commission

Charity Commission.

But this exemplification of the use of the power is not, of course, an argument against the existence of the power itself. Conceding the existence cure of the power itself. Conceung the extraording the content of the power, if in any instance an illegal exercise of it has been made, that fact will constitute a defense to a prosecution, but will not be effective to destroy the validity of the grant of power itself. The basic question still remains: May a private charitable association, order, or organization be demiced the right to fulfill the purposes of tion be denied the right to tunn me purposes ut, its existence saving under a "permit" from the authorities? We here use the term private chartiy as meaning one not supported in whole or in part by State or municipal funds. Over the later class manifestly the power of regulation and control is great if not plenary.

Certain features of these ordinances at once strike the reader. Money may be freely sent abroad by any "established church" for the unlift of the soul of the Senegambian, and this is very of the soul of the Senegambian, and this is very well; but no penny can be sent to Beigium, to Poland, to Serbia, to still the wailing of the children or allay the anguish of the women except under a "permit" from the Charitisa Commission. Nay, more; in the city of Los Angeleit (stieff its needy childhood goes unfeet and undothied, its dependent whomanhood improtected and trassed for by organised tharrites except they have a "permit." Surely here, it anywhere, a "permit." Surely here, it anywhere, a "The organized charity, estimated itself in the name of a camboas, spinished Christ.

We publish in this issue the full text of a remarkable judicial deci-Sion which was recently given by the Supreme Court at Los Angeles The facts of the case were also published in a recent issue. These were in brief, a police ordinance which Booght to prevent The Salvation Army from soliciting for charity selling the donated merchandize t a permit (these permits being withheld from The Salvation Army). AT TANSDOWNE THE Lansdowne Corps, in the north-west section of the north-west section of Toronto, was opened only last summer by Ensign Mc-Lean and Lieutenant Hay-ward. At first the Sunday's meet-ings were held in a rented theatre, all the other public meetings being open-airs. The Soldiers met toge-ther in the houses of the various

omrades. A distinct advance was made when a vacant store was secured and fitted up as a Hall, and since then considerable amorete has been made: many persons getting converted; a thriving Young People's Work be-ing carried on, and Local Officers Commissioned.

The first visit of the Commissioner to the Corps has given a decided impetus to the work, creating stuch interest amongst the public, cheering and encouraging the Soidiers, and resulting in twenty-four persons surrendering to God, either for Holiness or Salvation.

To accommodate the crowds that To accommodate the crowds that were expected, the Academy The-aire was secured for the day. This place has a seating capacity of slightly over four hundred, and when we state that the total number of people attending the three meetings was not far short of one thousand, it will be seen that expecta-tions were not disappointed. At night there were very few vacant scats, although a great recruiting meeting was in progress almost next

tions in New York City.

At the first meeting of the series the Commissioner spoke on The Salvation Army's Work among the native races of South Africa. The Chief Secretary and most of the American Departmental Heads were absent, they having a Salvation Army day in Washington, so Colonel Melatyre, the Provincial Commander, presided over the meetings held in the Central Province.

The entry of the Commissioner into the Hall was the signal for a tremendous outburst of enthusiasm. There was no hesitancy about New York gatherings, as we saw them. They gave York gatherings, as we saw them. They uterance to their feelings with the maximum gound. Instrumental blasts, ear-piercing whistles, haud-dapping, and cheering were characteristic of every audience, whether at New York I., the Bowery, at the Scandinavian Citadel, or the Training College. We straightway felt at home.

AN OLD CANUCK

When the crowd that filled the Hall had settled When the crowd that filled the Hall land settled down, Colone McIntyre began his getall chair-manship. As many of our readers know, the Colonel is an old Canadian Oliker, but has been in the States for twenty-two years. He calls himself "an old farmer from Ingersoll," but there is nobling of the proverbial hayseed about him. He hat a form like that of a generalissimo, and talks of millions with the linency of a real selar eagent or a minister of finance.

He began his introduction of the Commis-oner by liking him to certain great captains of He began his introduction of the Columbia solure by liking him to certain great capitains of industry, who, by their own intage greatness has Entonee in these remarks like arrly agricultura-training asserted itself, for the Colond declared the Commissioner to be "a whole straw-cuter to contory and a vertiable three singenther of oloquetee. As may be imagined, under this cheerfulues, the meeting rolled merrily along, and the Commissioner's address was received with every expression of delight. The applause at its conclusion was mighty and prolonged. Mrs. Colonel Miles declared it to be the best missionary lecture she had ever heard.

A FAMOUS SINGER

fn this meeting our old friend Major Arnold in this meeting our old triend major Arnoud was, for the first time, introduced to an American audience. His fame had evidently preceded him, for the congregation clamoured loudly for a solo. They got their desire, and evidently retained. enioved it

The Sunday morning service began at 10,30, and at that timp the Hall was filled, but the audience continued to surge in until all standing moon was occupied, with many in the

An outstanding feature of these New York meetings was the heartiness and tunefulness of the congregational singing. It was generally splendidly, and particularly so at this service. The singing of such deeply spiritual old songs

as "Cleansing for Me" seemed to unctionize the assembly, and the Commissioner's address on "Spiritual Power" was listened to with an intentness that was deenly impressive

How mightily God had used the Commissioner as a spiritual teacher to these people was shown by the number-between forty and fifty-who came out to the Mercy Seat for the blessing of power for service. Amongst them were several Officers and Soldiers, as well as a number of exboozers, who had been won for God through the special efforts made by Colonel Mefntyre for their endamentan

In the afternoon service at the Bowery, about twenty-five of these men were present, several of whom gave most touching testimonies to the spiritual uplift that they had received at the morning's meeting. There was Murdock, an ex-saloon-keeper, who had come out for the power that would enable him to be a strong Christian and a valiant Salvationist. He had gone home and told his wife about the wonderful meeting. and together they had knelt in prayer that the wife might get in her home the power he had obtained in the meeting. They not only consecrated themselves, but gave their son to God

Prior to this service the Commissioner and his Staff had addressed a meeting held in The Army's Hotel for homeless men in the same thoroughfare. Truly, in the Bowery, at any cate, The Salvation Army has not strayed from its original nurnoses and practices

The meeting which the Commissioner addecesed at night was in the Scandinavian Citadel. Lieut.-Colonel Nillsson piloted the proceedings. He is, certainly, a live wire, and for an hour music and song and brief speeches followed each other in rapid succession.

WITH THE SCANDINAVIANS

The Hall will accommodate about seven hundred, and it was crowded with well-dressed men and women, whose prosperous appearance was in sharp contrast to the Bowery crowd.

The Corps has a good Songster Brigade, who sing to guitar accompaniment; an efficient ss Band, and a good fighting force, which the Commissioner met and addressed prior to the

Colonel Miles, the Training College Principal, not only arranged that the Cadets should be present at each of the Commissioner's meetings, but that he should address them on Monday

The New York Cadets are approximately a hundred in number, with a very proficient Band of twenty-one pieces. They are, mentally, a very alert lot, and very few of the good things said alert lot, and very few of the good things said slipped past them. Their presence, applause, and their singing were inspiring to a degree. The New York Cadets made a distinctly good impression on the Commissioner and his Staff. We heartily congratulate the Commander on prospective Officers.

The Commander, we regret to say, was absent from Headquarters on this occasion through an attack of grippe. She managed, however, to hold a hrief telephone conversation with the Commission.

MODELS OF EFFICIENCY

Some Social Institutions were visited by the Commissioner and Staff during the day. They all seemed models of efficiency, and one aspect particularly impressed the visitors: it was the

spiritual welfare of the inmates.

It was the first visit of the Canadians to New York, and the impressions upon the mind of each, judging from what we saw, is that The Salvation Army in New York is an Organization of abounding vigour, and that the spiritual redemption of men occupy the van, and domi-nate the whole,
